## "Marbella Marbella" goes Jazz"

By Dario Poli

**Jazz mastermind Louis Fiers, has offered his support to Marbella and the Costa del Sol campaign begun by composer Dario Poli and producer David Mairs.**

When Dario Poli the composer of the music "Marbella Marbella" and David Mairs the arranger and producer of the song, heard it played in a new Jazz format created by the famous jazz musician Louis Fiers, both musicians were gob-smacked by Fiers's arrangement and his virtuoso playing, as his hands effortlessly flowed across the keys of his new piano. He performed the song as if playing two pianos at the same time without losing style and elegance. Like a butterfly the notes of "Marbella, Marbella," danced and flitted in and around the melody with effortless precision, in a dazzling display of melodious variations, musically handling the new song like an impassioned lover effortlessly seducing his captive audience. For Dario and David, it was a real tour de Force.

For David Mairs, the popular resident musician at the Mijas Playa, who has shared the stage with Louis Fiers before, it was an extra joy, as David is a great piano player in his own right, so he more than any other, appreciated Louis's

improvised playing and Louis mutually respects David's consummate musical skills.

The idea for a Jazz variation began after Dario played Louis the song recorded by Samantha Mairs: Inspired by the flowing melody, her fine singing and professional presentation, after one hearing, and by memory, he improvised the song on the spot.

Louis Fiers from Ghent in Belgium is considered to be one of the best exponents of Jazz in Europe and his CV is a who's who, of Jazz legends he has worked with, including Count Basie, Catarina Valente, Sidney Bechet, Toots Theilemans, Jack Say, along with Bill Haley and one of the world's greatest Jazz musicians Bill Coleman who worked with Louis in Paris and the great Spanish bass player Francisco Pose. Louis Fiers is indeed musical supremo.

He and his musicians will be performing a Jazz concert at the Hotel Tamisa Golf on Saturday 25th October 2008 and will be playing the new Jazz version of "Marbella, Marbella." Telephone 952 585 988 for further details.

All Jazz aficionados are welcome.
